

## Online Gardening for Wildlife Talk

### A Talk on Gardening for Wildlife by Muff Dudgeon

Green finches, blue tits, gold finches, hedgehogs, frogs ,bees and if you are lucky a greater spotted woodpecker are just some of the wildlife that can visit our gardens. This talk will look at how we can garden in order to increase habitats and food supplies to these birds, mammals and insects and therefore attract more of them. By increasing bio- diversity in the garden ( be it large or small) we can have year round fragrance, interest and more.

**Thursday 25th February 2021**

**6:30pm — 8:30pm online**

**£3.50 (book on Eventbrite.co.uk)**

10% discount for Axminster Heritage Members
